▼ Wolf Neve's stream from today has been removed and or set private. Great footage of the first people getting in from the back of the capitol. Poof. Gone.

4 Fair. But at least my group didn't think we would necessarily get what we wanted but we'd noisily express our anger at the injustice, it was now or never. Doing nothing would be like rolling over. That it turned out the way it did was probably inevitable. Remember there had already been peaceful rallies twice after the election. This was after NOTHING seemed like it was going to happen. It was still an incredible unforgettable experience.

17 I think we're just disappointed, a lot of people were convinced that Trump would win today. I think the biggest mistake people made was showing up unarmed. If everyone has a rifle it would have been peaceful.

12 I was there at the front entrance trying to breach. Tear gas cannons above the doorway and 5 mace wielding officers were effective at preventing further entry. In addition, Only about 30 people were actively trying to get in. Most everyone was just watching us. Understandable.

16 We needed to be better equipped. Very few of us had goggles or anything to block the pepper spray or tear gas. Nobody had offensive weapons. Lots of pedes on here talked about being equipped. Nobody backed it up. They cleared the building with ease.

▼ I was there and have video to prove it. When I got to the entrance that patriots stormed, the door glass was already broken and the window near the entrance was broken as well. Riot police were inside the door preventing anyone from going in and police were also in the room with the broken window. As this was happening, there were riot police at my rear right flank to the in a line. Our side didn't start the violence. The police in the rear began basically charging patriots and pushing them back, followed by tear gas, flash bangs, mace and pepper balls. Once this happened, many people just took off and ran, several dozen, and the rest were left trying to hold the line, outnumbered. People were more interested in taking selfies than backing up anyone on the line. That's when police started assaulting people. The police that were behind the police with riot shields were striking people with batons. I saw people getting hit with tear gas canisters to the head. The patriots that tried holding the line were doing all they could with the numbers we had. Hadn't the other Trump supporters bailed, we vastly outnumbered the police. Many just absolutely cucked and ran.

I personally listened to Kevin McCarthy (R-CA), House Minority Leader publicly condemn all efforts to protest at the Capitol today. The facts are really simple. We elected the wrong people to represent us in this government, and now we must accept our defeat, because the only people with the popularity to assemble an army are all on their side.

26 Protesting cannot and will not work. Democrats will not even continue to allow Conservatives to protest. They will order the police/national guard to put an end to any protests, and the police will guard will do it, because there isn't anyone forcing them to actually pick a side for war. If Patriots were shooting back, then the National Guard would be forced to consider whose side they are really on. That's the way a Civil War works, but the police and National Guard are not viewing this as a war, and that's why we are losing.

5 This is exactly my concern. Our cause can only succeed by force from an organized army. That kind of organization only occurs when there is a call to action from someone respected and popular enough to actually command masses. The problem is, no one that is capable of assembling an army is will actually do so. ✓

4 Antifa was all over it, if anything, they started it and it snowballed. Many posts all over twitter.

6 That's even worse. If ANTIFA wants to fight our corrupt tyrannical government, then more power to them. If what you say is true, then I cannot help but ask, where are the true patriots. Why aren't we shooting back yet?

4 They have no interest in fighting a tyrannical government. They ARE tyrants. Their interest is in escalating the violence so they can pin it on Trump supporters.

12 How can this stand? It's disgusting. The MSM will be relentless with their lies about this protest.

▼ permalink save report block reply

5 I spot-checked MSM, it's exactly what one would expect: they are calling the Patriots "violent rioters" etc, after flailing for any excuse to call the Antifa/BLM shock-troops that have been rioting/looting for 5+ years "peaceful protestors."

MSM Fake "News" has reached Peak Disgusting today. (But stick around, they will top themselves.)

▼ I care when they smash people's homes and businesses, not the home of the elites who steal elections.

2 Wasn't us, we don't hide our ideology. "The Communists disdain to conceal their views and aims." To my intense shame, the American left isn't good for anything but smashing people's homes and businesses.

Unorganized resistance is useless. That's why I didn't go today. Like so many others, I am ready to die for this, but I'm not about to lose my life in some sort of riotous melee. Post the coordinates for the organized front line and the name of who controls the command structure, and I will be there.

My brother, I do not wish to argue. Today has done nothing to alter the course of history as planned by the globalists. Today is merely 0.01% of what is necessary to reclaim the Republic. We must organize during this definitive moment in history and reclaim the birthright so generously bequeathed to us by our forebears.

▼ MSM views:

When BLM sets fires, breaks windows, assaults and kill people, steal stuff from unaffiliated businesses, attack law enforcement and innocent civilians : Peaceful Protest for their lives.

When MAGA knocks a few barriers down to verbally confront crooked and sleezy politicians to politically protest fraud but obey law enforcement when asked to: EVIL DISORDERLY VIOLENT DEADLY LAWLESS UNPATRIOTIC UNPOLITICAL INSURRECTION.
